FLOOR DEBATE

in another state, what kind of databases we're going to use for this. These are the administrative parts, and I...during my time here, when we talk about this, I have some amendments filed that were recommended to me by law enforcement in my own community, to deal with problems with the way the bill is structured. I don't think we should be ramming this thing through. I don't think it's good for the people. The people in my district have the same views as the people of Senator Kruse's district. But I would like further discussion, and I would also like to know if we're going to have different kinds of issues in the state because of that. I think it's a very interesting question and a very interesting problem, and I hope that we have some discussion on it. I would like to mention, in response to Senator Combs' "assertations" that law enforcement officers are not against concealed carry, there was an article here on Wisconsin, and it's an old article, couple of years old. The date doesn't really matter, because it's talking about the governor's veto of concealed carry in Wisconsin. And one of the things that is noted in the article is that law
